

**Esme**

all terrain - huge balloon tyres

**Tough Tommy**

articulated tracks & 1:2 climb ability

**Eileen**

road registered - soft/rough terrain

**Beryl**

fast on the highway - 15t 4WD

**Eunice**

fast on the highway - 20t push

**Baby Jayne**

for when the access gets really tough!

**Minnie**

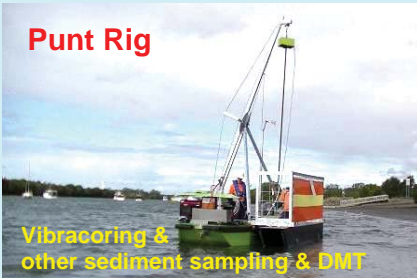

our mini-jack-up rig self-launching on most sites

**Little Jack**

test anywhere, any way, any situation

**Punt Rig**

Vibracoring & other sediment sampling & DMT

**Little Men - PNG based rig**

helicopter transportable

**Mighty Mouse**

in a nice clean box can be flown anywhere

**Mudskipper**

amphibious - vibracoring & DMT & shallow CPT "probing"

**Mad Mack**

MDG-15 compliant for mining work ultra-low-pressure flotation tyres can access most tailings dams etc

**Calibration Lab**

we calibrate to high standards

# IGS

*reducing geotechnical uncertainty*

### **In Situ Testing**

CPT, CPTu, SCPTu, Tee-Bar  
DMT, SDMT, Vane Shear

### **Sampling**

PPI Piston Sampler  
Vibracore & other sediment samplers  
Vertek & Window samplers, etc

### **Other Things**

piezos, standpipes & permeabilities
