## Geotechnical Services

CPT & Piezocone

Dilatometer

Seismic Dilatometer

Vane Shear

Tee-Bar

Piston & Eziprobe Sampling

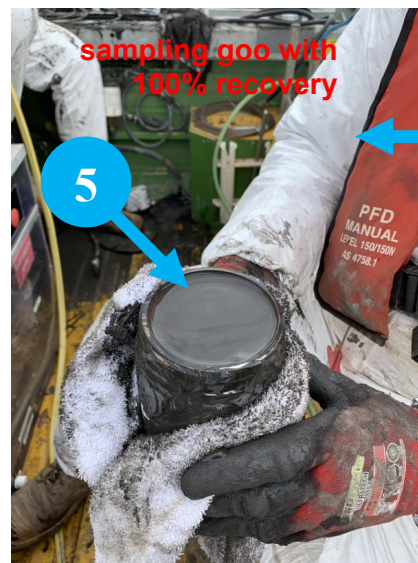

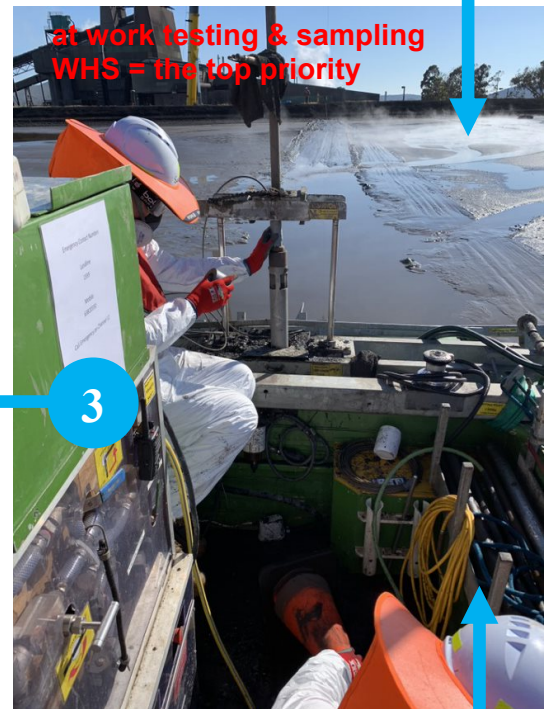

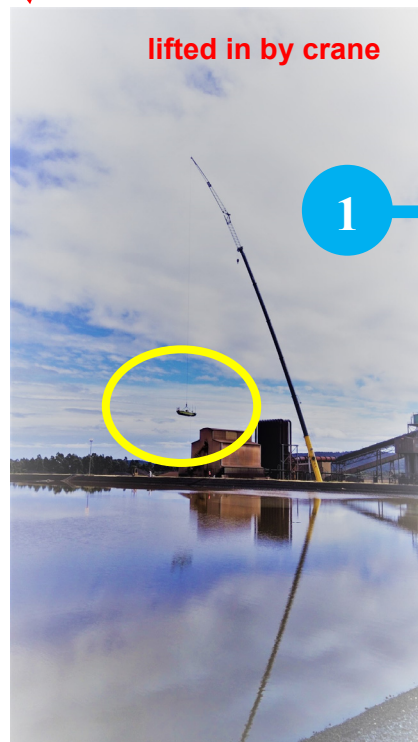

PPI Piston Sampling

Piezometer Installation

In Situ Permeability

## The Punt Rig overcomes a challenge

This project is further proof that if you want a challenging job done properly you can work with IGS to achieve this. Success was due to a very happy collaboration by IGS, a great client, great consultants and great crange operators.

**reducing geotechnical uncertainty**
