IGS is committed to providing a healthy and safe workplace.

Insitu Geotech Services Pty Ltd is an Australian owned specialist insitu testing service provider operating in Australia and South East Asia. The company is committed to providing a work place where health and safety is paramount during all work performed. We recognise that people, both our employees and our clients, are our most important assets and their health and safety is our priority in the successful operation of the company.

The objectives of the IGS Health and Safety Policy are:

- To implement a Health and Safety System that enables the company and employees to comply with Workplace Health and Safety Acts, Regulations and Codes of Practice.
- To make health and safety an integral part of every decision made by all employees of IGS in order to achieve an incident free workplace.
- To provide all employees with the skills required to make and implement safe work practices through internal and external training programs.
- To develop and implement intrinsically safe insitu testing techniques
- To operate a health and safety system that is understood and adhered to by all employees.
- To regularly consult and communicate with employees regarding the health and safety decision making.
- To continuously improve on the health and safety processes within IGS to reduce employees' risk of exposure to hazards.
- To report, investigate and learn from all incidents and events which occur within the work place.
